Tropical ICES

Tropical Ices began in 1987 and since then has grown to offer an extensive range of desserts. Over the last 30 years Tropical Ices has launched more luxurious products than the rest of the UK suppliers. We have done this by listening to what our customers want, rather than giving to them what we want to sell. Our aim is to continue with this approach and work with our clients in building successful relationships.

Our range includes Dairy, Non-Dairy, Real fruit sorbets, Ceramics, Cakes and specialities for children. We are proud to offer a large portfolio of products including top quality ice creams with natural flavours.

Tropical Ices is known for its high speed service and superior quality of products. Products are delivered by our reliable and friendly drivers in temperature controlled vehicles, so they reach you in perfect condition.

"The foundations of our business are the quality of our products and the service levels we provide across our distribution network. It is the loyalty of our customers and partners throughout the world which provides us with strength and security to continue our strategy of solid and sustainable expansion. We want our customers to have the highest quality desserts with a first class service. I set up my business with the vision that I would bring you exceptional desserts. Our desserts are absolutely delicious and engineered to transform an ordinary evening into a delectable experience. At Tropical Ices we believe that customer service along with a final high quality product is very important to be successful."

About Us

Established in 1989, Ayesha Foods began as a manufacturer of samosas to restaurants. With the support of a local client base and strong family support, the business grew to supply authentic hand made products across the UK.

"I am passionate about home style Indian cooking and more importantly using a variety of flavours to meet everyone's choices with food. I was born and raised in India where I learned traditional home cooking from different regions of India and from the very best cooks. I love discovering new flavours and techniques from all over the world, and I travel both internationally and within the multicultural city of Bradford for inspiration. I recognize the importance of using fresh local ingredients in my cooking, and have incorporated this value into my entire business model."
